### 2. Reasons for the dividend increase

While adhering to the basic policy of “maintaining stable payment of dividends,” the Company established a shareholder return policy in April 2023 based on its belief in placing greater emphasis on the return of profit to its shareholders in conjunction with medium-term growth. Under the shareholder return policy, “while maintaining a basic policy of paying dividends and targeting a dividend payout ratio of 30%, the Company will also remain mindful of continuing to pay stable dividends with a dividend on equity ratio (DOE) of 3% as a guide.”

For the fiscal year-end dividend of the fiscal year ended February 28, 2026, the Company resolved to increase the dividend by ¥0.50 per share to ¥33.00 (consolidated dividend payout ratio of 30.1%) based on the shareholder return policy, after giving comprehensive consideration to the financial results exceeding the earnings forecasts at the beginning of the fiscal year, the future business environment and other factors.

Accordingly, including the interim dividend that has already been paid (¥32.50 per share), the annual dividend will be ¥65.50 per share.

The Company plans to submit a proposal regarding this matter at the 71th General Meeting of Shareholders scheduled to be held on May 28, 2026.
